Profit and Loss Review

Revenue

Revenue increased by S\$7.6m or 24.7%, from S\$30.8m in FY2009 ("FY09") to S\$38.4m in FY2010 ("FY10"). This was due to an increase in revenue contribution from the increase in demand for renovation and fitting out, which translated into higher demand for our products. Revenue from the general segment increased by S\$7.2m or 35.9% over the period under review were mainly a result of a greater market recognition of our products through our marketing efforts and the ability to meet our customers' requirements. For project segment, revenue increased by S\$0.4m or 3% in FY10 due to increase in sales to both our new and existing project customers.

Changes in inventories of finished goods

Inventories of finished goods were S\$7.0m in FY10 compared to S\$1.8m FY09 due mainly to purchase of products to support higher demand for tiles.

Purchases and related expenses

Purchases and related expenses increased by S\$9.5m from S\$20.7m in FY09 to S\$30.2m in FY10, largely in line with the increase in our revenue and our expansion of product range, especially in our stone tiles.

Employee benefits expenses

Employee benefits expenses have increased by S\$0.9m from S\$3.8m in FY09 to S\$4.8m in FY10 mainly due to the increase in remuneration paid to our staff as a result of salary increments and a headcount increase of 41 staff to support the increase in our business activities.

Depreciation expense

Depreciation expense increased from S\$370,000 to S\$537,000 mainly due to depreciation on major additions of property, plant and equipment during the year (mainly Sungei Kadut Loop warehouse which was acquired in December 2009).

Impairment losses

Impairment losses have increased by S\$129,000 in FY10 from S\$187,000 in FY09 to S\$316,000 in FY10. This is mainly attributable to an impairment allowance for trade receivables of \$167,000, partially offset by bad debts recovered in FY10 of S\$26,000 and an increase in impairment for inventories of S\$19,000.

8 A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. It must include a discussion of the following:-

- (a) any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors; and
- (b) any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on.

Material factors that affected turnover, costs and earnings

Profit and Loss Review

Finance Costs

Finance costs have increased by S\$42,000 in FY10 from S\$403,000 in FY09 to S\$445,000 in FY10. This is attributable to the utilisation of working capital financing to support the increase in our business activities which includes the increases in purchases.

Other expenses

Other expenses increased by S\$1.0m from S\$2.7m in FY09 to S\$3.7m in FY10 due mainly to increase in (i) water & electricity by S\$0.1m due to increased in office and warehouse space usage, increased in utilities tariffs and back billing of utilities for FY2008 and FY2009, (ii) overseas travelling expenses by S\$56,000 for trade fairs, (iii) hire of vehicle of S\$82,000 to accommodate the increase in demand for our products, (iv) legal and professional fees by S\$0.1m (vi) rental expenses by S\$0.1m due to land rental for our new Sungei Kadut Loop warehouse and new showroom in Trade Hub, (vii) property tax of S\$80,000 and stamp duties of S\$36,000 in relation to the purchase of the Sungei Kadut Loop warehouse and (viii) staff welfare by S\$58,000 which is line with the number of staff.

Other charges

Other charges increased by S\$1.0m, from S\$0.04m in FY09 to S\$1.4m in FY10 due to the increase of expenses of \$0.5m relating to the initial public offering ("IPO") of the company in December 2009 and losses of S\$0.5m arising from fair value of the foreign currencies forward contracts that are outstanding as at 30 June 2010.

Profit before income tax

Profit before tax increased by S\$32,000 or 0.8%, from S\$4,216,000 in FY09 to S\$4,248,000 in FY10 due mainly to higher revenue, lower cost of inventory, partially offset by other charges and expenses. Had the expense of S\$934,000 (2009: S\$420,000) relating to the IPO of the company been excluded, our pretax profit for FY10 would have been S\$5,182,000 (2009: S\$4,636,000), 11.8% higher than FY09. The effective tax rate of 21.7% is higher than the Singapore corporate tax rate of 17% due mainly to non-deductible expenses, such as IPO expenses.

Material factors that affected cash flow, working capital, assets or liabilities

8 Balance Sheet Review

Non-current assets

Property, plant and equipment increased by S\$3.0m as a result of purchase of a warehouse at 54/56 Sungei Kadut Loop and motor vehicles.

Current assets

Current assets increased by S\$15.1m due mainly to increase in inventories by S\$6.9m, trade and other receivables by S\$3.7m, other assets by S\$0.9m and cash and cash equivalent by S\$3.6m.

Higher inventories was due mainly to purchase of products to support higher demand for tiles. The increase in trade and other receivables is in line with the increased revenue in FY10. Other assets increased from S\$0.2m in FY2009 to S\$1.2m due mainly to advance payments to overseas suppliers as a deposit to start production for the range of products we have ordered. Cash and cash equivalents in FY10 were higher as a result of net proceeds relating to the IPO of the company in December 2009.

Non-current liabilities

Non-current liabilities increased by S\$0.5m due mainly to the property financing for our new warehouse at 54/56 Sungei Kadut Loop Singapore 729477.

Current liabilities

Current liabilities increased by S\$8.2m due mainly to an increase in trade and other payables by S\$3.0m, in other financial liabilities by S\$4.6m, income tax payables of S\$0.2m and provision for the mark-to-market effect of the derivative financial instruments by S\$0.5m.

The increase in trade and other payables by S\$3.0m is in line with increased purchases. The other financial liabilities increased by S\$4.6m being current portion of the loan for the newly purchased warehouse at 54/56 Sungei Kadut Loop Singapore 729477 and increased usage of financing trade bills for our purchases.

Material factors that affected cash flow, working capital, assets or liabilities

8 Cash Flow Review

The net cash used in operating activities of S\$3.6m is due mainly to increase in other assets, trade receivables and inventories. This is due mainly to an increase in trade and other receivables of S\$3.7m, largely in line with our increase in revenue for FY10, increase in trade and other payables of S\$3.0m and increase in inventories of S\$6.9m, consistent with our expansion plan to cater for variety of tiles and stones for customers.

Cashflow used in investing activities was S\$3.3m due mainly to the purchase of the warehouse at 54/56 Sungei Kadut Loop Singapore 729477.

Net cash from financing activities was S\$10.3m due mainly to net proceeds from the IPO of the company in December 2009 and loan from financial institutions in relation to the purchase of the warehouse at Sungei Kadut Loop.
